The words that trembled on your lips Were nttered not-I know it wall; The tears that would your eyes eclipse The looks and emilse I gained from you

Were little more than others wen, And yet you are not wholly true, .

Nor wholly just what you have done. That every little grace you gave,

Your every sympathetic look At worde that chanced your soul to touch While reading from some fovorite book, Were much to me-alas, how much !

On which I rose, in joy and awe, Up to my passion's lofty scope; How after each, a firmer tread I planted on the slippery ground, And higher raised my venturena head, And even new assurance found. May be, without a further thought,

You measured not the awest degrees: Yet, though you hardly understo Where I was following at your call, You might-I dare to say you should-Have thought how far I had to fall. And thus when fallen, faint, and bruiesd, I see another's gled success,

I may have wrongfully accused Your heart of vulgar ficklenssa; But even now, in calm review
Of all I loet, and all I won, cannot deem you wholly true, Nor wholly just what you have done. -ROBERT MONCATON MILNES.

The Organ as a household instrument has been rapidly growing in favor and the yearly sales are now enormous. A good Organ remains in tune, is easily kept in order, and blends naturally with the quality of the voice. The advertisement of the Smith American Organ Co., in another column, is referred to the consideration of our readers. This house has an enviable reputation for good work and fair dealing.

No Soul.—A stump orator ent West, wishing to describe his opponent as a soulless man, dld it in this wise: "I have heard," said he, "some persons lield to the opinion that, just at the precise instant after ene human heing dies, another is born, and that the soul of the deceased eaters and animites the new-born babe. Now I have made particular and extensive inquiries concerning my opponent thar, and I find that for some hours previous to his nativity nobody died."
